Below are our policies to comply with GDPR legislation. Our Data Processing Officer is Dale Rogers. All queries and information requests should be forwarded to him/her in writing.

GDPR Policy Summary.

As an automotive workshop, our primary use for holding and processing Individual data is for contractual and legislative purposes.

We do not share data with any third parties outside of the provision of contractual or legislative services.

We may from time to time communicate with individuals to notify them when the Government mandated MOT inspection is due or to inform them of Legitimate Interest products or services.

We have a current registration with the ICO for the processing of data and follow the principles of the GDPR act in all matters related to the handling of personal data.

We have produced policy documents as listed below to cover specific areas of data use. The documents are listed below and are appendices of the General Policy Statement.
